Chuck:

Acknowledging what they have in 30d, I'd be curious how'd they respond to simply changing RD to RA in 30a/b as a first step?

As an additional note, we've planted a seed with the City that we'll have a meeting in September once we have EPA/MDEQ buy-in on our conceptual consolidation plan. In theory, this meeting is when we'd be able to discuss and define what the clearing / site clearance plan and traffic management plan would actually need to look like.

Thank you,

There are minor nits to be fixed – nothing worth mentioning. Please see para 30, including 30d.
